# What Sounds Do You Hear?

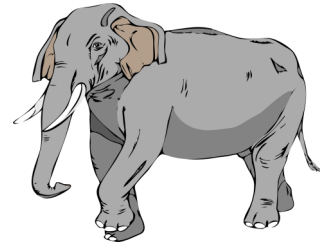

1) Print on cardstock and cut out the images on page 2 of this document. Glue or tape each picture to a craft stick.

2) Listen to music and ask your child if the music sounds soft or loud, high or low, fast or slow and have them answer by picking up the correct picture. You can use the free Piano Possibilities playlists on Spotify for listening. An Introduction to Classical Piano & An Introduction to Classical Music include great pieces for this game!

3) At the end of each recording, ask them to give you a thumbs up if they like the music or a thumbs down if they don't. A simple smile will work too!

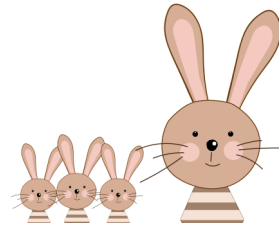

Soft

Loud
